

# 30+ Master Class

*If you want an even more focused experience, you can sign up for Master Classes. Developed specifically to respond to our students' requests for more individualised attention, these smaller intensive classes will help you to further improve your language skills. With only four to six students in each class, you will receive maximum speaking practice by working with a teacher who will help you focus on improving your pronunciation and conversation skills.*

## WHAT CAN YOU EXPECT ON THIS COURSE?

This small class has only three to six students so it is designed to give you maximum speaking practice. You will work with a teacher in a small group class to practice your oral fluency skills. Improve your spoken language so you can interact with native speakers. Work on conversation skills, improving pronunciation and listening to natural speech.

### What makes these classes different from the other Special Focus Classes?

These classes were developed to address the student request for smaller classes and individualised attention. Classes will run with minimum three students, maximum six, averaging four-five students to give more personalisation for students.

### When are these class offered?

Classes are scheduled to allow students to take these in addition to their GE20, SI24, and GE30 class schedules. As an add-on class, this course may be scheduled outside of the normal 8-5 class hours.
